DETAILED ACTION

Response to Amendment

1. This action is responsive to the Amendments filed 24 August 2004. Claims 1-35, 58-62 and 69-102 pending.

Election/Restrictions

2. Claims 69-85 are generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 58-62, linking the species illustrated by claims 1-35 and 69-85 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Katz on 17 September 2004.

The application has been amended as follows:

Claim 58 line 7, "implement power" has been changed to – implement first power –.

Claim 58 line 13, "said IED." has been changed to – said IED; and said interface further operative to receive, said a first external function module comprising second power management functionality. –.

Allowable Subject Matter

4. Claims 1-35, 58-62 and 69-102 are allowed.

5. The following is an examiner's statement of reasons for allowance:

Claims are allowable over the prior art because an intelligent electronic device which has a first interface coupled with said processor and said at least one of a display and a communications interface, said first interface operative to receive a first external function module, said first external function module comprising second power management functionality, wherein said first interface is further operative to facilitate implementation of said second power management functionality is not found, taught or suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
